

GUM Workbench Educational Version

GUM Workbench Educational Version can be freely used for educational purposes, seminars and workshops but the functionality is limited to the functions needed for education.

The Educational Version runs directly from the CD and does not need any installation. The ISO-file of the CD content can be downloaded in the Download Section free of charge.

A CD with GUM Workbench Educational Version can be ordered from Metrodata GmbH.

In addition to the Educational Version, Metrodata GmbH supports master and PhD thesis programs by a free, time-limited, full version. Please contact Metrodata GmbH by email ([info\(at\)metrodata.de](mailto:info@metrodata.de)) if you are interested in this program.
